# DISPLAY 32 LARGE

## The interactive multimedia display with landscape format.

The perfect combination of elegance, functionality and technology, Display 32 LARGE offers uncompromising exceptional quality, excellent communication and superior placement compared to normal displays of the same size. Thanks to the large landscape format display, Display 32 LARGE is perfect for video information applications such as web TV, where with advanced systems schedule management and screen segmentation, newstickers, videos, slides and media content find their place in a harmonious and functional way.

## Description

Display 32 LARGE is an interactive display with a large landscape format, designed to meet specific needs of communication such as digital signage, digital advertising and corporate TV where the placement of displays is problematic.

It is enough to examine its qualities to realize its uniqueness

- Elegant design in white color
- 32" Full HD or 4K display
- High brightness and contrast value for images that capture

Display 32 LARGE is the digital signage system that is always ready to bring your communication to any location and with a style that even the best free-standing display would not be able to have. Thanks to the bright 32" display, Display 32 LARGE offers all the space needed to display information and attract attention, whether it is placed inside a large shopping center or in a waiting room. The elegant white finish, the slim profile, the Hi-Fi speakers, give appeal to any promotional or entertainment message you want to convey.

**>> You can use it  
for your business,  
events, or for selling adverts.**

### Measures
